PERSONAL SKILLS

Team Work

Adaptable / Responsible

Capacity to work under pressure

ABOUT ME

I am a game programmer with a big passion for playing and creating games through the use of my knowledge obtained during these years and combining it with other experienced people to create new/fun worlds. I am mainly interested in the field of gameplay. However, I also love the areas of VR, AR, AI, UI and others more uncommon such as musical programming aspects.

Permission to work in EU and willing to relocate if required.

EXPERIENCE

GAME PROGRAMMER

Infinite Games Studio / Jan 2017 – Dec 2017

Spanish game studio. Variety of tasks, from reworking old games to the newest one. Most of them orientated to Gameplay and UI elements. We used Unity and C# as the primary programming language.

GAME PROGRAMMER

Iction / Mar 2018 – Jn 2018

Creating one of their new games. Different tasks, but principally: UI, Gameplay and AI elements. We used Unity and C# as the primary programming language.

GAME PROGRAMMER

Super Awesome Hyper Dimensional Mega Team / Jn 2018 – Present

Spanish game studio. Focused on Gameplay and UI elements for their new game. Unity and C# as the primary programming language.
