PERSONAL SKILLS

Team Work

Adaptable / Responsible

Capacity to work under pressure
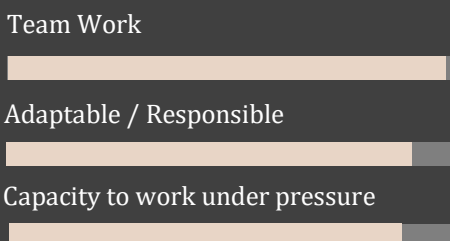

ABOUT ME

I am a programmer with a big passion for playing and creating new/fun worlds.

I am mainly interested in the field of gameplay. However, I also love the areas of VR, AR, AI, UI, Finding bugs (QA) and others more uncommon such as musical programming aspects.

Permission to work in EU and willing to relocate if required.

EXPERIENCE

GAME PROGRAMMER
Infinite Games Studio / Jan 2017 – Dec 2017

Spanish game studio. Variety of tasks, from reworking old games to pthe newest one. Most of them orientated to Gameplay and UI elements. We used Unity and C# as the primary programming language.

GAME PROGRAMMER
Iction / Mar 2018 – Jun 2018

Creating one of their new games. Different tasks, but principally: UI, Gameplay and AI elements. We used Unity and C# as the primary programming language.

GAME PROGRAMMER
*Super Awesome Hyper Dimensional Mega Team / Jun 2018 – Apr 2019*

Spanish game studio. Focused on Gameplay and UI elements for their new game. Unity and C# as the primary programming language.
